How's this for a holiday feast?

This is for all those, who like me, love the many flavors of the sea (and not just tuna.) I'm talking crab. Maryland crab!

Problem: I live far far away from Maryland.

Solution: The Crab Place

They're quick on their orders and have great products delivered directly to your door. I love the salsa with crab meat which is great on many things. It's definitely a great option to the routine salsas you pick up in the store. I'm just glad getting that delicious Maryland crab is a lot easier.
